Tools and Frameworks

- **Health Issues in the Community** – developmental asset-building learning resource aimed at empowering individuals to identify and take responsibility for developing responses to identified health concerns/issues (for further information contact Robert Cuthbert – 0141 248 1924/ robert@scdc.org.uk)

- **ARC (Action Research in the Community)** – guide to identifying community needs and assets and community-led approaches to asset mapping (for further information contact Robert Cuthbert or Kate McHendry – 0141 248 1924/ robert@scdc.org.uk / kate@scdc.org.uk)

- **Building Stronger Communities** *(in development)* – framework for assessing community strengths and community capacity building support which can be used as part of wider asset-mapping exercises or to underpin strategic approaches to building community strengths (for further information contact Susan Paxton – 0141 248 1924/ susan@scdc.org.uk)

Tools and Frameworks

- **ACE (Achieving Community Empowerment)** – programme and support manual aimed at developing stronger community organisations with greater impact – uses an asset-based approach allied to participatory outcome-focused planning (for further information contact David Allan or Susan Paxton – 0141 248 1924/ david@scdc.org.uk / susan@scdc.org.uk)

- **LEAP – Learning, Evaluation and Planning** – framework, training and online resource to support participatory outcome-focused planning – 'Analyse' section of the tool focuses on identifying stakeholder (community and agency) assets that will support and take forward action on identified community need (for further information contact Susan Paxton or Paul Nelis – 0141 248 1924/ susan@scdc.org.uk / paul@scdc.org.uk)
