***Delivering Asset Based Approaches for Public Health:  
Responding to the Challenge***

The **AIM** of this event is to provide an opportunity for participants to:

- Explore the development and delivery of asset based approaches for public health (in different contexts)
- Reflect on the opportunities and challenges to the delivery of asset based approaches
- Focus on North of Scotland issues (with a view to complementing local developments)
- Provide a forum through which to share and discuss issues and practice
- Strengthen participant's capacity to deliver (or support the delivery of) asset based approaches.
